

PRESS RELEASE

Silverling, by Meadow Argus
30/05/2021

Silverling is the debut full length album from Meadow Argus. The 5th release from Qld folk stalwart, Jevan Cole's (One Straw, Charlie Morland Trio, Ragged), current Psych-Folk project. This new release finds Meadow Argus breaching new bounds of the sonic wall. Fresh collaborations with Ellie Dalton (vocals), David Megarrity (vocals) and Emma McDonald (singing saw) lift the production and tie the album together into a coherent offering that takes the listener on an expedition from mystical acid folk to esoteric, droning ambience with detours through jangle fuzz pop and more along the way. The ghosts of Pentangle, Pink Floyd, Espers, and Neu! gather and smirk as Meadow Argus tip their hat to traditional folk while bowing to the spaced-out whimsy of epic psychedelia.

In these 10 tracks the listener is treated to the most refined version of MA's best self. Pour yourself a mulled wine, put on your comfy cloak and turn it up, Silverling is a real trip.

"...stunning, psych-infused freak folk...", The Revue (Toronto, 25/05/21)

"... a fascinating album weaving strands of folk, rock, psychedelic, dub, and electronic experimentation in varying degrees; like an undiscovered 80s-era 4AD album...", Burl Veneer (Germany, 05/05/2021)
